

THE CADILLAC ANGELS

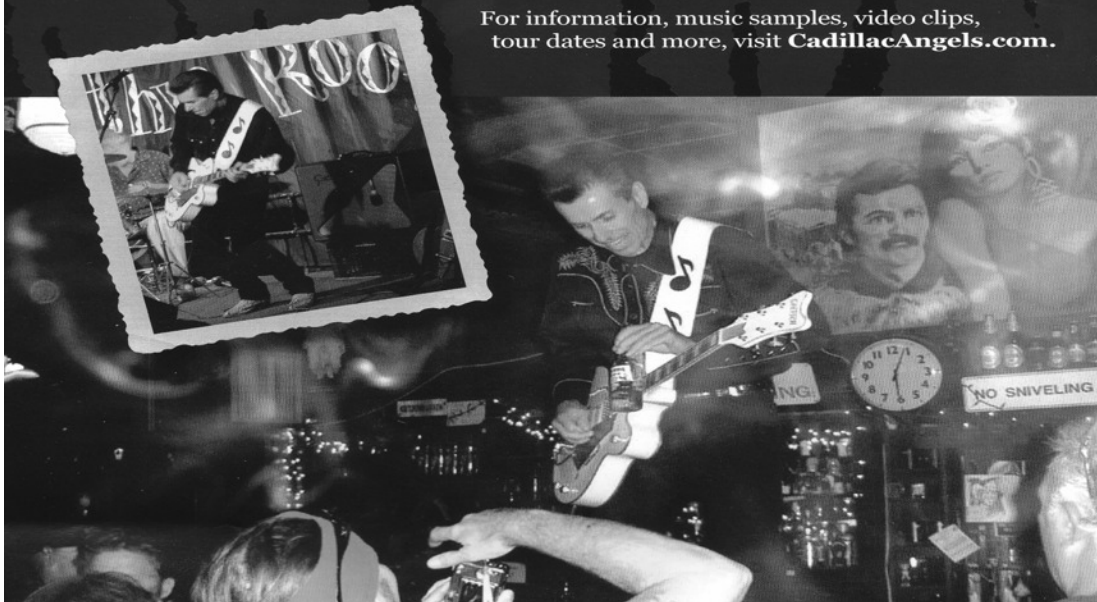

AWARD WINNING AMERICANA ROCK-N-ROLL

Tony Balbinot The Cadillac Angels

As front man for the Cadillac Angels, Tony Balbinot has been called the true spirit of American rock 'n' roll. He also embodies the true spirit of Gretsch, not only in guitars and amplifiers but in attitude as well.

Balbinot possesses a voice tailor-made for his trio's electrifying barrage of rockabilly, blues, rock 'n' roll, classic country, and a new hybrid of music called surfabilly. Fans claim the group's second voice is the growling, gritty tone that Balbinot commands from his Gretsch White Falcon and Tennessee Rose guitars. Tony also uses Gretsch amplifiers that generate more than enough *power* in the Cadillac Angels' high-powered live performances up and down the West Coast.

For information, music samples, video clips, tour dates and more, visit CadillacAngels.com.

A leather-clad trio who really know how to bring down the house with their energetic tunes and daredevil antics ... must see performers.

-- Rumble Magazine

I just think they play the finest rockabilly of any band I've ever worked with in the world ... -- Wanda Jackson

If we look at music that is on the cutting edge, then this Band is the Knife that makes the cut!!

-- L.Capone, Ent. Co-Ordinator Pershing Square, Los Angeles

... simply the best roots rock band on the planet ... -- Phil Dirt

“Brilliant, just bloody brilliant!” – Robert Plant

“The Cadillac Angels are a true American Treasure!”

-Scottish Rockabilly Fan-
